

College Student Voter Registration

Questions to consider:

- **Are you currently registered?**
 - If so, you have to update your voter registration if you've moved since you last registered (even if it's to a different floor in your dorm or a different apartment near campus), you can see the address where you're currently registered [here](#).
- **Where do you want to be registered to vote?**
 - **There are two options for college students to register to vote:**
 - **their permanent address (e.g. their parents' or caregivers' address) or**
 - **their college address (e.g. dorm, off campus housing, campus PO Box)**
- **Do you want to vote in-person or by mail?**
 - If you want to vote by mail in your permanent address' local elections but you go to school in a different county, then you qualify to vote by mail, and you should register in the county where your permanent address is located.
 - If you want to vote in-person where you go to school, then you should register to vote in the county where you go to school.
